

**Sustainable Settlements Charrette**  
Rethinking Encampments for Refugees and Displaced Populations

## **Project Template**

Project Idea:

Team suggesting project idea:

1. Purpose of project:
2. Description:
3. In which of the three “stages of encampment” will this project take place:  
(Emergency)      (Care & maintenance)      (Durable solution)
4. How will this idea be integrated into life in the camp(s)?
5. How does this idea relate to other project ideas?
6. Who knows how to develop and implement this project?
7. Is this project applicable to displaced populations in other climates and cultures?
8. What organizations must be involved, in order for this project to succeed?
9. When can this project be ready for use?
10. Rough cost in people and materials:
11. Sources of support—who can provide:
  - Advice?
  - Technical assistance?
  - Money or in-kind contributions?
12. Next step: Who will do what next, and by when:
13. Time required for project experiment (or first application):
14. How and by whom will first implementers be trained?
15. Method for educating teachers whom will propagate this project in other circumstances?
16. By what measures will we know it works and is replicable?
17. Barriers to implementation: (financial, technical, political, cultural, institutional, geographic, ethical, medical, philosophical.)
18. How to overcome barriers:
19. List activities that must take place for this project to succeed. Include who will do each.
20. Successes with similar projects:
21. Sources of reference material for this idea:
