Bibliography

Note: The references are listed under the surname of the senior author or (failing that) the name of the publication or organization. Listings are alphabetical in the form cited: if in doubt, look for organizational listings under both name and common abbreviation. (Cross references are provided.) Listings under the same surname or equivalent are chronological, not alphabetical by initials: Jones, a. 1975 comes before Jones, A 1980. Listings are repeated by a dash, which refers to the name or names most recently listed: thus in

- Jones, A. 1975
- 1976
- & Smith, B 1972
- 1981

the last listing refers to Jones & Smith 1981, not to Jones alone.
